

SHUBHAM RAJ

+91-7070721937 — shubhamraj.1937@gmail.com — LinkedIn — GitHub — Bangalore, India

Professional Summary

Data Analyst with hands-on experience in Python, SQL, Power BI, Excel, Pandas, and NumPy, focused on data cleaning, exploratory analysis, dashboard development, and translating data into actionable business insights. Delivered Power BI dashboards tracking **\$3.47Bn+** in transaction volume across **300K+ records** and streamlined recurring data workflows, cutting manual turnaround time by up to **50%**. Experienced in applying Generative AI and prompt engineering to build data-driven tools that support business decision making.

Technical Skills

- **Programming & Databases:** Python, SQL, MySQL, PostgreSQL, Relational Databases
- **Data Analysis & Libraries:** Pandas, NumPy, Exploratory Data Analysis (EDA), Data Cleaning, Data Wrangling, Data Validation, Data Modeling, ETL
- **Business Intelligence & Visualization:** Power BI, Power Query, DAX, Excel (Pivot Tables, VLOOKUP, XLOOKUP), Matplotlib, Seaborn, KPI Reporting, Dashboard Development
- **Developer Tools & AI:** Git, GitHub, Jupyter Notebook, VS Code, Streamlit, Prompt Engineering, Generative AI, LLMs

Work Experience

TechSimPlus Learnings

Bhopal, Madhya Pradesh
September 2025 – April 2026

Data Analyst Intern

- Cleaned and preprocessed **10+** retail and FMCG datasets using Python (Pandas, NumPy), applying data validation techniques to achieve **98% data accuracy** for downstream analysis.
- Engineered **4** interactive Power BI dashboards, including Blinkit and Coca-Cola sales analysis, using Power Query and DAX to monitor KPIs and evaluate business performance.
- Performed EDA and ad hoc analysis on **50K+ records** to identify sales and customer trends, informing **3+** data-driven business recommendations presented to stakeholders and mentors.
- Automated recurring reporting workflows using Python and SQL, reducing manual effort by **35%** and improving the efficiency of routine business processes.
- Delivered the Dubai Cold Coffee Finder and Customer Segmentation projects end-to-end, from data collection through final visualization.

Key Projects

AI Career Assistant

GitHub | Live Demo

Technologies: Python, Streamlit, groq API, LLM, Prompt Engineering, Generative AI

- Developed a Generative AI web application with Streamlit and the groq API that delivers real-time resume analysis and career guidance.
- Designed prompt engineering workflows that cut average LLM response latency by **40%**.
- Implemented context-aware conversation logic to generate personalized, structured career reports for end users.

Digital Payment Transaction Analytics Dashboard

GitHub

Technologies: Power BI, SQL, Power Query, DAX

- Architected a Power BI dashboard monitoring transaction health across **300K+ transactions** and **100K+ active users**.
- Developed Power Query ETL pipelines and custom DAX measures to track **\$3.47Bn** in transaction volume at a **96% success rate**.
- Modeled relational data schemas to enable drill-through KPI views, cutting stakeholder query turnaround time by **50%**.

Customer Segmentation Analysis

GitHub

Technologies: Python, Pandas, NumPy, Matplotlib, Seaborn

- Constructed an RFM customer segmentation and clustering pipeline on high-volume retail transaction data.
- Cleaned data and engineered features with Pandas and NumPy, improving data processing accuracy by **20%**.
- Visualized cluster distributions and cohort metrics with Matplotlib and Seaborn to support targeted marketing recommendations.

Education

B.Tech, Computer Science (AI & Data Science)

2022–2026

LNCT Group of Colleges, RGPV University

Higher Secondary Education (PCM)

2020–2022

M. V. College, Nalanda, Bihar

Certifications

- Google Data Analytics Professional Certificate – Coursera
- Master in Data Analysis & Analytics – Udemy
- SQL for Data Analysis – Udemy
- Data Analyst Internship Completion Certificate – TechSimPlus Learnings
